

CANADIANS COMING.

Waiting for Blaine's
Consent.

O'SHEA SUES THE REVERENDS.

Secretary Proctor Coming to
California.

Kincaide Will Plead Self De-
fense.

Canadian Commission.

Boston, March 27.—The *Herald's* Ottawa special says: A meeting of the Cabinet was held yesterday in connection with the proposed visit of the Canadian Commissioners to Washington, but no decision as to the date of departure was reached. For several days past a correspondence has been passing between Secretary Blaine and the Dominion Government regarding important preliminaries which Secretary Blaine insists upon being definitely settled before he will receive the Dominion representatives. It is learned by the *Herald's* correspondent that Sir Charles Tupper and colleagues are ready to start at a moment's notice when Secretary Blaine intimates he is ready for a conference.

O'Shea Sues the Reverends.

DUBLIN, March 27.—It is announced that Captain O'Shea has brought suit against the Catholic Bishop of the Catholic Diocese of Galway and Kilmacduagh, Most Rev. Francis J. McCormack, and against Canon John O'Mahoney of the Catholic Diocese of Cork. Captain O'Shea sues the reverend gentlemen mentioned for alleged libelous utterances in regard to his relations with Parnell, which have been attributed to the Bishop of Galway and to Canon J. O'Mahoney in the public press.

Save the Bilge Water.

VINEYARD HAVEN (Mass.), March 27.—Steam pumps have been put aboard the United States steamer Galena, ashore at Gay Head, and an effort will be made to clear her out and save what is in her hold. Efforts will not be made to float the Galena. The coal and light articles have been removed from the tug Nina. The tug Triana, ashore at Cutty Hunk, is breaking up rapidly. Her boilers and machinery will be removed.

Automatic Air Brakes.

NEW YORK, March 27.—The Engineer's News will publish this week a statement of progress made in the equipment of freight cars with automatic couplers and with automatic air brakes. Railroad companies owning over 700,000 freight cars report they have equipped over 99,000 cars with such couplings up to the first of this year. The statement says about 150,000 freight cars are equipped with automatic air brakes.

Coming to California.

SAN FRANCISCO, March 27.—The Southern Pacific officials have been notified that Secretary of War Proctor and party, consisting of Quartermaster General Batchelder, General Geo. B. Williams, Captain T. M. Woodruff and Major H. C. Hull, will arrive at Los Angeles from El Paso on Sunday morning and will arrive at San Francisco about Thursday.

Kincaide Trial.

WASHINGTON, March 27.—The trial of Charles T. Kincaide for the murder of ex-Congressman Taulbee was resumed to-day. After putting in some cumulative evidence, the prosecution rested its case and General Grosvenor made the opening address for the defense. He said his testimony to be presented would show Kincaide had acted in self-defense.

Murder Will Out.

PARIS (Tex.), March 27.—Since the capture of Bill Hudgins and a number of members of his gang recently, the officers have secured information showing Hudgins was connected with at least four murders that heretofore have been a mystery. The crimes were all committed in the Indian and Oklahoma Territories.

J. C. Quinn Appointed.

WASHINGTON, March 27.—The President directed the appointment of J. C. Quinn of California, Collector of Internal Revenue for the First District of California (San Francisco), vice, Sears, deceased.

Compounding a Felony.

SAN FRANCISCO, March 27.—Michael Coffey, an attorney, and Owen Kelley were arrested to-day on a charge of compounding a felony.

Frank Quinn was arrested a fortnight ago on a charge of picking Mrs. Kelley's pocket, but she didn't appear as a witness against him to-day and her husband said he thought she had gone to Stockton to see her sister. He said Coffey and Quinn's wife called at his house and he offered to recompense her if she didn't appear, but she was absent at the time.

Heavy Purchase.

PHILADELPHIA, March 27.—The ship-building firm of William Cramp & Sons closed the negotiations for the purchase of the Port Richmond Iron Works of the I. P. Morris Company. The consideration is said to be a large one. By this purchase the Cramps secure one of the largest iron works in the country and adjacent to their own ship-yards. Among iron men the Port Richmond works are famous throughout the United States. They cover about five acres of ground and employ about 500 hands.

Texas Fever in Missouri.

JEFFERSON CITY (Mo.), March 27.—The Texas fever is now raging among stock in Missouri and causing some alarm. The State Board of Agriculture in session here this morning, adopted a resolution requesting the Governor to issue a proclamation quarantining cattle from the affected sections. The Governor announced he would issue the proclamation without delay, prohibiting the bringing of cattle into the State from Texas, Arkansas and the Indian Territory.

Washington National Bank.

NEW YORK, March 27.—Bank Examiner Hepburn is still at work over the books of the Washington National Bank. The clerks of the institution are still at their desks. Hepburn said this morning that there were no new developments, but he will probably have a statement ready at 3 o'clock this afternoon. It is stated the Directors will have a meeting to see if anything can be done to reorganize the institution.

Damages from a Dog Bite.

SAN FRANCISCO, March 27.—Judge Lawlor to-day gave judgment against Michael Hayes in favor of P. Bigue for the sum of \$1,005. In March, 1890, at Hayes' saloon, the plaintiff, who was then four years old, was attacked by a dog owned by Hayes and bitten so severely on the cheek and eye that he will be marked for life. The suit for damages resulted as stated.

Sheriff Bound Over.

NEVADA (Cal.), March 27.—As a result of the preliminary hearing before Justice Mulley, Sheriff Dunster was this morning bound over in the sum of \$500 to be tried in the Superior Court on the charge of having been unable to perform his official duties by reason of intoxication. Conviction for this offense carries removal from office.

Great Seal of State.

PROVIDENCE (R. I.), March 27.—Governor Bulkeley of Connecticut has sent a requisition for Thomas Garnet, who is now in the penitentiary here. Governor Davis, when asked if he would recognize the requisition, said notwithstanding he thought Morris the legal Governor, he would as the document bore the seals of Connecticut.

Woman Murdered.

CAMDEN (N. J.), March 27.—The dead body of Nellie Ryan, a woman about 40 years of age, was discovered early this morning in a clump of trees. It is thought the woman was outraged and killed.

The woman was last seen in company with a negro, but whether he killed her or not is not known.

Arrest of County Officers.

WICHITA (Kan.), March 27.—County Clerk Curry, Treasurer of Glodery, County Commissioners Merton and A. Cole of Comanche county, were arrested on information charging them with malfeasance in office.

Proctor in Texas.

SAN ANTONIO, March 27.—Secretary Proctor spent yesterday inspecting Fort Davis, Hancock and Bliss. His reported retirement from the Cabinet July 1st, he says, is pure gossip.

Woman Burned to Death.

BANGOR (Me.), March 27.—The house of Mrs. Caroline Tuck at Haynesville was burned this morning, and she was in her bed.

Weather Report.

SAN FRANCISCO, March 27.—The forecast is occasional light rains for California.

AN ITALIAN'S VIEWS.

One Who Thinks It Time to Call a Halt to the Mafia.

Mr. Rocchi, a leading Italian citizen of New Orleans, has the following to say of the action of the people there in taking the law in their own hands: "Saturday's tragedy was indeed a sad affair—a deplorable occurrence—but in the light of the cause which actuated the citizens to take the law in their own hands I cannot do otherwise than express myself in favor of the action of the committee. This is the feeling which is entertained by the representative class of the Italian element of this city. The execution of these men was a good deliverance to the community. It is possible that there were some innocent men executed, but in the sweep of great good there is always more or less evil. The innocent men—assuming that some of those not on trial were innocent—had bad associates, moved among bad men, and the stigma and suspicion they incurred were due to these baneful associations. The vengeance of the populace was not directed against the Italians, as a race, but against a lot of men at whom the finger of guilt had been pointed; for this reason it is unfortunate that the impression should have gone abroad that the Italian people of this city—the respectable and law-abiding element—were threatened with mob violence, and were in momentary danger of their lives. The men charged with the assassination of Superintendent Hennessy would have met a similar fate had they been Irish, German, French or Spanish. The fact that Italians were implicated in the assassination reflects of course upon the worthy and respectable Italian element of this city—as a colony—a reflection which is unmerited, as all fair-minded men know. It is possible that when the good class of Italians living elsewhere, who are now denouncing in unmeasured terms the action of the committee here, learn the true condition of things which made it imperative that retribution should be meted out to the criminals, they will alter their opinions and will join with the Italian people here in indorsing the action of the citizens."

THE MINSTRELS.

Cleveland's Boss Company on the Road.

Arrangements have been completed for the appearance of Cleveland's Consolidated Minstrels at McKissick's Opera House on Monday evening, March 30th. This is an exceptionally strong attraction. Among the many prominent names on its roll are those of Billy Emerson (who is still as "happy as a big sun-flower"), Hughie Dougherty, Larry Fagan, Luke Schoolcraft, Griffin and Marks, Fields and Hanson, Signor Bonedetto, the marvelous male soprano singer (an importation), Raymond Shaw, Charles Noble and J. Marcus Doyle. The Cragg Troupe of gentlemen acrobats, another novelty from Europe, will be featured in the olio; Eddie Fox will conduct the grand orchestra. Fagan's two productions will be put on elaborately, having cost, it is said, not less than \$15,000 for scenery and costumes. Cleveland seems to be developing into something of a monopolist, who takes his pick of available talent and leaves what he doesn't want for his rivals, and his efforts are accordingly appreciated by theater-goers, who will turn out in force to see his past company.

THE SOCIAL SESSION.

Rich Music, Fun and Laughter in Store For All. The Social Session Co. is to be here on Wednesday, April 1st. The following press notice is taken from a San Francisco paper:

After a day of summery splendor, a clear, starlight night aided in attracting many light-hearted people bent on recreation and the enjoyment of musical pleasure, towards the California Theater, to witness "A Social Session." The orchestra chairs were filled and the gallery packed. A splendid overture by the celebrated Star orchestra, received the appreciation it so richly merited, and the curtain promptly rose and disclosed the first scene of a three act play, which is just a happy, gay, ludicrous combination of pleasant no-nonsense, well filled in with good singing and dancing, all of which excites fun and merriment without the slightest strain on the emotions. Shouts of laughter and continued applause testified that the audience received all the amusement they expected, and grand applause on the opera of Il Trovatore closed this captivating play. Box sheet now open, so secure your seats.

Public Parks.

RENO, March 27, 1891. EDITOR GAZETTE: What's up now? Was at the Courthouse a few minutes ago, found Williams busy making out deed from owners of property opposite Riverside Hotel to county for a public park. Think of it! A whole half acre for a public park. The bill passed the Legislature authorizes the County Commissioners to issue \$5,000 bonds; \$1,750 for Riverside Park, and the balance, presumably, goes to Powning's Addition, where a second park is to be sold to the county, and it is said this park will embrace a whole block. Think of it! A whole block. Over an acre and a half—shades of Central Park, New York, and the Golden Gate Park in San Francisco. Only two thousand dollars an acre for the land. I don't know how you feel about this matter, but to me it looks like beddle. H. H. B.

Prompt Settlement.

The Trustees of the Knights of Pythias met last Wednesday evening in Virginia City and let contracts for the repairs to Pythian Hall, lately damaged by fire, and work will begin next week. The insurance was promptly settled, and in twenty-four hours after the arrival of the adjuster the K. of P. Trustees had a check for the amount of the loss, \$730.

Double Murder and Suicide at Spokane.

The Yosemite Season Has Opened Up Early.

Murder and Suicide.

SPOKANE FALLS, March 27.—A double murder and suicide occurred at the Casino Theater at 2:30 this morning. Charles Elliott, a faro dealer, had been occupying the box nearest the stage on the right side for about an hour, when he was seen to lean forward from the box and fire three shots at the performers on the stage, then placed the muzzle of the revolver in his mouth and fired again, the bullet going through the top of his head. One of the shots entered the left breast of Mabel De Babian, a variety actress, and another bullet entered the back of Carrie Smith just above the hip, inflicting a dangerous wound which may prove fatal. About half an hour after the shooting Mabel De Babian expired. She was about 23 or 24 years of age, and was a general favorite with her associates. In the pockets of the dead man were found a number of cartridges and the following note addressed to Lulu Durand: "I have wanted to carry out my purpose, but haven't had a favorable chance yet. It was an old score, but I had to foot with you. I trust to luck and a good shot to accomplish my purpose. (Signed:) Chas. Elliott."

The fact that Lulu Durand was on the stage at the time of the shooting makes it a clear fact that she was the one whom he was shooting at. Carrie Smith, who was shot in the back, was taken to the Sacred Heart Hospital, and at last accounts was somewhat improved and the doctor believes she stands a good chance to recover. The hall entered her back and struck the floating rib, making a wound which is not necessarily fatal. Lulu Durand stated that she believed Elliott intended the shot for her, but being somewhat behind the other girls, she escaped.

A Murderous Act.

DELFAY, March 27.—At a charity ball at Stragaddi, county Donegal, last night, an insane man suddenly appeared armed with a double barreled shotgun. Before he could be disarmed he fired both barrels of the gun among the dancers. One young girl was shot in the back. She was removed from the ball-room in a dying condition. The madman was arrested.

A Railroad Dividend.

NEW YORK, March 27.—The Delaware, Lackawanna & Western directors to-day declared the regular quarterly dividend of 1 1/2 per cent. The statement presented showed a slight decrease in the gross earnings on account of a decreased coal tonnage, but the net earnings were a little better than last year.

Chicken Thief Killed.

KANSAS CITY, March 27.—The farmers in the vicinity of Rosedale have been suffering from the depredations of chicken thieves. A number of them have placed spring guns in their chicken houses, and last night an unknown man was killed by one of them. He was probably a professional in the business.

Weather Report.

WASHINGTON, March 27.—The storm that was central yesterday in the middle Gulf States has split in two, a portion going east to the Carolina coast and another portion going north to Indiana. Another storm has moved from the Pacific Coast to the northern plateau region.

Burned to Death.

AUSTIN (Pa.), March 27.—The Commercial Hotel was burned this morning. Lizzie McGarick, a domestic, Jack McCarthy, a boarder, and an unknown parson perished. The pecuniary loss is small.

Telephone Trial.

BOSTON, March 27.—The government to-day granted an extension of three months in which to introduce evidence before the examiner in the case against the American Bell Telephone Company.

The Sioux City Scheme.

CHICAGO, March 27.—A special from Sioux City, Iowa, says: The receivers of the Wyoming Pacific Improvement Company and Nebraska and Western railroad have issued their first official statement of the affairs of the Pacific line railroad. It shows announced control of the road; that the property is still owned by the Manhattan Trust Company of New York and that holders of unsecured claims, of which there are about \$250,000 outstanding, will probably lose them. The Sioux City people who have subscribed about \$300,000 will have to buy the Manhattan Company out or lose their money.

Yosemite Open.

RAYMOND (Cal.), March 27.—The first stage for the season has been sent into the Yosemite Valley, the roads being reported in good condition, and will run daily into the valley from now forward, or nearly three weeks earlier than last year. The number of tourists applying for accommodations to enter the valley is said to be larger than for any previous year.

TELEGRAPHIC BREVITIES.

The steamer Worra, from Bremen, arrived at New York to-day. All the down-town exchanges in New York were closed to-day on account of it being Good Friday. In New York early this morning a scow laden with sand capsized and Captain Hanson was drowned. At New York Rev. Dr. Crosby, who has been ill for some time past, is announced to be dying at 2:45 this afternoon. Lazard Freres to-day took \$700,000 in gold from the sub-treasury in New York. It goes by the steamer La Bretagne to Paris. The wholesale clothing house of Newbourn & Co. of Milwaukee is in the hands of the Sheriff. The assets and liabilities cannot be ascertained yet. In Washington the offerings of silver to-day amounted to 339,000 ounces, of which 115,000 ounces were purchased at prices ranging from .9810 to .9825.

RAILROAD SURVEY.

A Year To Be Spent in Its Exploration—Successful Efforts to Keep Dark About Its Objects. The Salt Lake Tribune of the 25th inst. has the following concerning the mysterious movements of a surveying party, which may be of interest to Nevada people:

During the past week a mysterious expedition has been organized in this city, and to-day it will depart for the front. Those engaged in the enterprise have maintained the strictest secrecy in regard to the route they propose to take and their objective point, but as J. G. Jack, the well-known guide, has been engaged to lead the party, it is believed that the expedition is in the interest of the Union Pacific Railway. Jack has plotted more surveying and locating parties through the wilds of the Great Basin than any other man in the West, and for years has been the right-hand man of Union Pacific engineers in charge of such work.

A Tribune reporter pressed the button of a talking machine last night, and was informed that the party would proceed to the end of the proposed Deep Creek road, and from there thoroughly explore the country until they reach the coast line in the vicinity of Wilmington, Cal., where there is a harbor which is being improved by the Government. This done the party will proceed eastward through Arizona and New Mexico, and then south to the boundary line between Mexico and this country, their objective point being in the vicinity of El Paso. The party will consist of two gentlemen from the East who have succeeded in preserving their identity, J. G. Jack, the guide, A. E. Fay, and that most necessary adjunct, a cook. The trip will consume the greater part of a year.

The Marine.

George La Blanche, "the Marine," and fake prize fighter, was on this morning's overland going east. He was at breakfast with his wife in the dining car when it passed Reno, and hence was not interviewed, but he looked like a man that could enjoy a good beef steak better than a punch in the ear.

DIED.

HARTUNG.—In Virginia City, March 26, 1891, Roy L. Hartung, son of Otto and Debra Hartung, aged 8 years and 4 months. (Milwaukee, Wisconsin, papers please copy.) JORDAN.—In Austin, Tex., March 27, 1891, Charles Jordan, a native of Sweden, aged about 70 years. BOTTOMFELDER.—In Tybo, Nev., March 13, Charles E. son of Mr. and Mrs. John Bottomfelder, aged 2 years.

F. LEVY & BRO.

In an authorized interview in the New York Tribune of March 17, 1891, President Harrison said: "I do not think we need any more financial legislation for the present; what we have should have its period of trial. I do not see any present or near future necessity of further financial legislation. I have favored silver coinage up to a point where I thought it could be safely used. It is not always easy to determine exactly the danger point. It is best, however, to be conservative, and I think we have got about as far for the present in the direction of free coinage of silver as can be done for the best interests of of silver. To go further might result in depreciating it. A depreciated dollar's first mission is to go out and cheat some workman in the payment of his day's wages. It is the poor man who feels first the ill-effects of a cheapened currency."

The President is extremely conservative in his views on free coinage, and we think he has been unduly influenced by his gold bug allies at the East. The country needs more money, and we are convinced that the free coinage of silver will supply the demand and make times, both East and West, better. President Harrison's enmity to the white metal has been very pronounced and bitter, but the cause is growing in popularity daily and is bound to come within the next three years.

THE San Francisco Bulletin referring to the Canadian question says: An English advocate of Imperial federation declares that if England loses Canada she will have to give up the leadership of the world and the United States will take her place. That is just about the size of it. Geography shows that the United States includes the biggest and best patch of ground on the globe for the home of a great people, and the Dominion is a part of it by physical configuration. With such a country and with such a people we are bound to take the lead. For the last thirty years, under Republican auspices, we have been getting ready industrially, and now the time is about ripe to assume our leadership.

AMONG the many lessons taught us as American by the New Orleans lynching is one demonstrating the looseness of our present naturalization law. We are treated to the spectacle all over the country of so-called American citizens appealing to a foreign power to retaliate against their own country. This is high treason and shows a want of loyalty in the quasi Americans which would put to shame the acts of an Arnold. One Italian in San Francisco expressed his regret openly that he was an American, even by naturalization. We feel safe in saying that his regret is no deeper than our own.

THE Call says: The report that Italy, without regard to their citizenship, has demanded redress in the case of the assassins who were slaughtered at New Orleans, is incredible. It is true it only proves that the new Ministry has to play the fool abroad in order to be sustained at home. We hope that Sig. Rudini will be greatly affected by the admirable letter of Senator Nicholls to Mr. Blaine. We may see all the apology Italy will get from the American people.

THE San Francisco police have done a good job in suppressing the pool rooms. The nefarious business has ruined more young men than a few. The young men of San Francisco have supported the bookmakers for years, and it is about time to throw this non-producing contingent on the cold charities of the world. Now they can study up some other method of making money without work.

GERMANY exported \$16,000,000 worth of beet sugar into the United States last year, and is yet hog enough to shut out our swine. President Harrison may close our ports against German sugar if the American hog cannot poke his snout into the Kaiser's markets.

TO CONVERT THE NOMADS.

A New Religious Order for Special Work in the Sahara Region.

Cardinal Lavigerie, who has done so much to abolish African slavery, has given his sanction to the formation of a new religious order having for its special object the conversion to Christianity of the peoples in and around the Sahara Desert. The name of the new order, says the Chicago Post, is the Brothers of the Sahara. It is the purpose of this brotherhood to advance as fast as they can safely do so from oasis to oasis across the desert, and thus to be the advance guard in pushing French influence through the great regions which she has recently acquired. Thus far the Catholic church has been very unfortunate in its endeavors to extend its missionary work across the desert. Quite a number of its missionaries who started to cross the Soudan have been killed by fierce nomads. This time the missionaries will not attempt to push forward any faster than it seems safe to advance.

Their first religious establishment has been opened at Biskra, in southern Algeria, where the members of the order are receiving preliminary training in languages and native usages so that they may easily carry on their work. They intend to receive under their roof all wayfarers, fugitive slaves, sick and infirm people who require either shelter, hospitality or medical care. It is hoped before very long to found branches of the order in Tugurt and Wargla, the next stages on the desert route.

It is probable that the fierce Tuaregs who killed M. Tine, the celebrated Dutch traveler, several other well known explorers and every missionary who has ventured into their territory, will soon cease to be the plague of the desert. Between the persistent missionary influences that are constantly making headway, and the purpose of the French, in one way or another, to remove the hostility of the Tuaregs, the fierce nomads will have an exceedingly hard time of it if they do not change their attitude of persistent hostility toward every white enterprise and is pushed toward their country.

INDIAN AND COMET.
The Former Accounts for the Latter to His Entire Satisfaction.

During the year the last comet was appearing in the sky I was camping one night in a canyon near the foot of Look's Peak, N. M. In the party was an old and for an Indian—a fairly intelligent Ute named Sam. Sam had been attached to some cavalry troop at Fort Cummings as a scout, says the Kansas City State, but his day of leaving the service being reached, he attached himself to me—for a consideration. Pointing to the comet, I asked Sam what he could say in its defense from the standpoint of a Ute. Sam was, unlike most Indians, a good single-handed talker, and could speak English very well. He was ambitious to perfect himself in the language and readily seized on every chance for a "talk." Indeed, I discovered him on one or two occasions all alone and talking vigorously at a mark like a savage Demosthenes sans the pebbles.

"Tell about that?" said Sam, pointing toward the comet. "Sam do it heap easy, you bet. The sun is the man and he have moon for squaw. The stars, his stars and little stars—all are their children. The sun don't like 'em and chases 'em. If he catch one he eats it. This makes the stars heap 'fraid, and when the sun comes stars go; creep into holes and hide. But the moon is good. She loves her children, the stars, and when the sun sleeps she comes out in the sky and the stars are glad, and they come out of the places they hide in and forget to be 'fraid and play. But when the sun wakes again they run. He is always after them, and he catches them sometimes. This one," continued Sam, again pointing at the comet, "the sun catch one time. He got away, though, but the sun bit him and hurt him. That's why he bleed so. Now he's heap scared, and so he keeps his face always toward the place where the sun is sleeping."

A PENSIONED SCHOOLMASTER.

The Hard Lot of an Aged German Pensioner.

A schoolmaster named Handorf, sixty-eight years old, was pensioned from a Mecklenburg estate twelve years ago, after having taught there twenty-seven years. His pension consisted of a cow, a shabby little cottage, a small parcel of ground on which to raise a few bushels of potatoes and a few small measures of rye. The old man received nothing, however, toward the defraying of his daily expenditure for food, heat and light, and so it came about that he was obliged to go out on the highway as a laborer for twelve and one-half cents a day. In the heat of summer and the raw, wet days of fall he has for many years worked patiently and uncomplainingly among rough men who were formerly his scholars, enduring without a word the taunts and reproaches of an unfriendly inspector. On the second and fourth Saturday of every month he has stood in line with the other laborers, his wage-book in his hand, and waited his turn to receive the paltry sum due him. Twelve years of the old man's life have passed thus. He has passed his eightieth year, and is without a prospect of a better fortune.

Curiosities of the Census
A curious fact in statistics of population is the greater number of people whose age is expressed in decimals of ten. For instance, in the last census of Rhode Island there were more than twice as many people 50 years old as there were 49. So, again, there have been found in a certain area 2,039 colored people 60 years old, 1,999 71 and 19,000 70. The fact is a striking illustration of the general fondness of people for round numbers. A man who is 59 or 61 years of age is quite apt to call himself 60, and in a similar case a woman will call herself 40 or 50.

A Baron's Romantic Effort.
A sentimental French Baron sleeps every night upon a pillow filled with the hair of all the most lovely women in the world. He has paid as much as five francs for a single hair, to ensure himself against the fearful calamity of having a hair from the head of a plump girl creep into the collection. It must be dreams of fair women that come each night to the gallant nobleman.

Pure Blood

Is absolutely necessary in order to have perfect health. Hood's Sarsaparilla is the great blood purifier, quickly conquering scrofula, salt rheum, and all other taintful enemies which attack the blood and undermine the health. It also builds up the whole system, cures dyspepsia and sick headache, and overcomes that tired feeling.

Scrofula Sores.
"My adopted boy, aged 14 years, suffered terribly from scrofula sores on his leg, which spread till they at one time formed one great sore from the calf of his leg up to his thigh, partially covered with scab, and discharging matter continually. The muscles became contracted so that his leg was drawn up and he could hardly walk. We tried everything we could hear of, without success, until we began giving him Hood's Sarsaparilla. In just a month, after he had taken two-thirds of a bottle, the sores entirely healed, his leg perfectly straight, and he

OPERA HOUSE DRY GOODS STORE.—C. W. BOOTON.

To the Business Men and Citizens of the State of Nevada:

The time has come when I am compelled to plead my own cause in this boycotting business. First, I will acknowledge that I signed the first contract to close at 8 o'clock, also that I did all I could to carry it out and help the League, but as it has been my misfortune to have reverses in business, and as I was compelled to raise money for parties that I owe, I went to the Clerk's League at a meeting on two different occasions, and told them it would be impossible for me to close at 8 o'clock.

Now, when the League says that I, on different occasions violated my pledge, all I can say and can prove, and that by Mr. Al Wilson, who is a member of the League, that it is FALSE, as Mr. Wilson has been in my employ since the contract was signed,

So far as my word is concerned, it is for the people to say, and not for the League to publish such trash to the entire State. I will further state that when the time comes that a few boys try to pull down and degrade a man when he has the misfortune that I have had, then it is high time to sell out and let the boys run the town.

Respectfully,

C. W. BOOTON.

The Result of Merit.

When anything is a test of fifty years of discriminating people of the Americans, it is pretty good evidence that there is merit somewhere. The value of a medicine is best proved by its continued use from year to year by the same persons and families, as well as by a steady increasing sale. Few, if any, medicines have met with such constant success and popularity as has marked the introduction and progress of Brandreth's Pills, which, after a trial of over fifty years, are considered to be the safest and most effective purgative introduced to the public.

That this is the result of merit, and that Brandreth's Pills actually perform all that is claimed for them, is conclusively proved by the fact that those who regard them with the greatest favor are those who have used them the longest. Brandreth's Pills are sold in every drug and medicine store, either plain or sugar-coated.

Is Disease a Punishment for Sin? The following advertisement, published for a prominent western patent medicine house would indicate that they regard disease as a punishment for sin:

"Do you wish to know the quickest way to cure a severe cold? We will tell you. To cure a cold quickly, it must be treated before the cold has become settled in the system. This can always be done if you choose to wait until your kindness to man gives timely warning and plainly tells in nature's way, that as a punishment for some indiscretion, you are to be afflicted with a cold nose and throat. Do not wait until it is too late. The first symptoms of a cold, in most cases, is a dry, loud cough and sneezing. The cough is soon followed by a profuse watery expectoration and the sneezing by a profuse watery discharge from the nose. In severe cases there is a thin white coating on the tongue. What to do? It is only necessary to take Chamberlain's Cough Remedy in double doses every hour. That will greatly lessen the severity of the cold and in most cases will effectually counteract it, and cure what would have been a severe cold within one or two days time. Try it and be convinced." 50 cent bottles for sale by J. B. McCullough, Druggists.

A Scorn of Paper Saves Her Life It was not a case of wrapping paper, but it saved her life. She was in the last stages of consumption, told by physicians that she was incurable and could live only a short time; she weighed less than seventy pounds. On a piece of wrapping paper she read of Dr. King's New Discovery, and got a sample bottle; it helped her, she bought a larger bottle, it helped her more, she bought another and grew better, she continued its use and is now strong, healthy, rosy, plump, weighing 140 pounds. For further particulars send stamp to W. H. Cole, druggist, 10 Smith. Trial bottles of this wonderful discovery free at W. H. Cole's drug store.

Quick Work.

From the Des Moines Mail and Times. A few days ago while sitting in Elder Bros' drug store at Tingley, Iowa, Mr. T. L. Dyer, a well known citizen, came in and asked for something for a severe cold which he had. Mr. Elder took down a bottle of Chamberlain's Cough Remedy and said: "Here is something I can recommend." It commanded a large sale and gave genuine satisfaction. It is an excellent preparation and cheap. Mr. Dyer purchased a bottle, and the next day when we saw him he said he was much better, and the day following appeared to be entirely restored. This is a specimen of the effectiveness of this preparation. For sale by J. B. McCullough, druggist.

Rupee.

This is what you ought to have, in fact, you must have it, to fully enjoy life. Thousands are searching for it daily and mourning because they find it not. Thousands upon thousands of dollars are spent annually by our people in the hope that they may attain this boon. And yet it may be had by all. We guarantee the Electric Bitters, if used according to directions and the use persisted in will bring you good digestion, and cure dyspepsia, and install instead Rupee. We recommend Electric Bitters for Dyspepsia and all diseases of Liver, Stomach and Kidneys. Sold at 50c and \$1 per bottle by W. H. Cole, druggist.

LAW OF NEVADA.

Passed at the Fifteenth Session of the Nevada Legislature, Ending March 19, 1891.

The GAZETTE continues to-day the publication of the laws enacted by the last Legislature. Those of only local character are given in brief synopsis, while any of general interest will be given in full:

CHAP. XXII.

To amend an Act relating to the transportation of indigent insane persons and convicts. Provides to pay the actual expenses of the officer in charge, in traveling, and \$5 per diem to the officer.

CHAP. XXIII.

An Act to repeal Section 47 of an Act to provide for the management of railroads. It permits now the placing of freight cars in the rear of passenger cars.

CHAP. XXIV.

An Act to consolidate the county offices in Ormsby county. It makes the Sheriff ex-officio Assessor, the Clerk ex-officio Treasurer, The Recorder ex-officio Auditor, Administrator and Coroner; the District Attorney ex-officio Superintendent of Public Schools. Takes effect in 1892 and 1895.

CHAP. XXV.

An Act to prevent unnecessary delay in rendering judicial decisions by the Courts of this State.

SECTION 1. No Justice of the Supreme Court, nor Judge of the District Court in this State shall, after the first day of July, A. D. one thousand eight hundred and ninety-one, be allowed to draw or to receive any monthly salary unless he shall take and subscribe an affidavit before an officer authorized to administer oaths that no cause in his court remains undecided that has been submitted for a period of ninety days.

SEC. 2. The said affidavit shall be filed with the State Controller, and shall constitute his authority for drawing and delivering the monthly salary warrant for any such Justice or Judge.

CHAP. XXVI.

An Act to provide a system of sewerage in Carson City. As it is of entirely local interest it is here omitted.

CHAP. XXVII.

An Act to abolish the compensation of County Auditors for extending the taxes on the assessment roll. SECTION 1. It shall be the duty of the County Auditors of the several counties to extend the taxes on the assessment roll without any additional fees or compensation.

SEC. 2. All Acts or parts of Acts in conflict with the provisions of this Act are hereby repealed.

SEC. 3. This Act shall take effect from and after the first day of January, eighteen hundred and ninety-three.

CHAP. XXVIII.

An Act fixing the salaries and compensation of the officers of Humboldt county and consolidating certain ones. It makes the Recorder ex-officio Auditor at a salary of \$1,800 per annum. The salary of the County Clerk is fixed at \$1,200, and the County Treasurer the same; salary of the Assessor, \$1,800; and District Attorney, \$1,200.

CHAP. XXIX.

An Act to consolidate certain State offices in the State of Nevada.

SECTION 1. The State Treasurer shall be ex-officio Superintendent of State Printing; the Superintendent of Public Instruction shall be ex-officio Clerk of the Supreme Court, ex-officio State Librarian and ex-officio Curator of the State Museum; the Governor's Private Secretary shall be ex-officio Adjutant-General, and as such officers and ex-officio officers, they shall severally perform the duties required by law.

SEC. 2. Section two of an "Act to establish a State Printing Office, and to create the office of Superintendent of State Printing," and all other Acts and parts of Acts so far as they conflict with the provisions of this Act are hereby repealed.

SEC. 3. This Act shall take effect and be in force on and after the first Tuesday after the first Monday of January, A. D. eighteen hundred and ninety-five.

LANDER COUNTY.

Some Items of Interest from That Section.

The Central Nevada of yesterday says:

The Pittsburg Company have three Huntington mills reducing ore and producing about \$10,000 in gold bars monthly. A rim for one of the mills arrived Monday.

Superintendent E. D. Town of the Pittsburg mines, with his family, departed Tuesday for San Francisco, where Mr. Town, who is suffering of heart disease, will seek medical aid from the best physicians of that city. John Q. A. Moore, an old pioneer of Argentina, was in town the first of the week. He was on his way to the Carlin coal fields, discovered a number of years ago, of which he is principal owner.

Sheriff Fellows of Humboldt county has levied upon the Etina Mining Company, and will sell the personal property in Galena on Saturday.

Reciprocity.

Judging from the appearance of the GAZETTE Reno must be a pretty dull town. For several weeks the GAZETTE has been compelled to fill up its local and editorial columns with reminiscences. By the way, the only live and interesting matter in Bragg's organ at any time is the Associated Press news.—Carson Tribune.

Thanks, neighbor, that is more than we expected you to acknowledge. The GAZETTE publishes as full a telegraphic report as any paper on the coast, and we are glad to furnish the Tribune material for one live item.

An Revolt.

Charles F. Bicknell, ex-Clerk of the Supreme Court, a position he held since "the memory of man runneth not to the contrary," passed Reno last night on his way to his new home in Los Angeles, Cal. The GAZETTE bespeaks for him a kind reception in boomland and expresses the sincere wish that he will find as generous a public there as he did here.

Cattle Shipments.

Eighteen carloads of beef cattle were shipped from here this morning to May of Portland, Or.

Twelve carloads of beef cattle were shipped to Grayson, Owens & Co. of San Francisco.

SUGAR BEET CULTURE.

Seeds, Soil Preparation and Planting.

The general belief is that any one knows enough to raise beets, but to make the cultivation of sugar beets a success, it is essential to follow those methods that have been tried successfully, and hence the GAZETTE presents the views of those who have engaged in the actual work.

SOIL PREPARATION.

Deep plowing is necessary to provide room for foot growth entirely beneath the surface since any part that projects is of little value for sugar. If the plowing be done in the fall, the final preparation should be made at planting time, carefully avoiding any plowing or deep stirring that would cause a loss of the winter's accumulated moisture. Thorough preparation before planting is of prime importance. It is one of the chief factors of a good crop. Any neglect here will be a source of frequent annoyance and extra labor throughout the season.

PLANTING.

Experience teaches that the planting must be exceptionally well done to secure a desirable stand. The seed should go into the ground as early in May as the temperature will insure germination. It may be considered safe when the average daily temperature of the air reaches 50 degrees.

The French and German seed growers have increased the per cent of sugar by the continued careful selection of "mother beets" for producing the seed, none being used that did not test a high per cent of sugar. At present no seed should be used but that coming from foreign growers through responsible importers. Those who wish to grow trial plots the coming season will likely be able to secure the seed from the Agricultural Department at Washington. Some may be obtained from the University.

It matters not so much what method is followed in planting whether by hand, garden seeder or otherwise so the seed is put down into moist earth and covered at least one inch in depth. If this covering be well firmed it will assist in holding the moisture. The porous shell of the seed makes an extra amount of moisture necessary to reach the real seed within and cause it to grow. Germination may be hastened by soaking the seed in water at a temperature of 120 to 135 degrees for twenty-four hours just before planting. They can easily be made dry enough to plant with a machine by mixing them with plaster or dry soil.

It is claimed that the largest yield per acre both in per cent of sugar and quantity of beets is obtained from thick planting where the rows are four or five to eight inches apart and the plants six to eight inches in the row.

SEEDS.

The Agricultural Department at Washington furnishes the following varieties: Bultaco, Desires, Dippe's Vilmorin, Florindon Despres, Richest, Dippe's Klein Wanzleben and Simon Legrand's White Improved.

RENO'S FIRE DEPARTMENT.

A Step in the Right Direction that Will Benefit the Town.

The Trustees of the Fire Department have concluded to employ ten men at a salary of about \$10 per month each, whose duty it shall be to sleep in the engine house every night and be ever vigilant in looking after fire matters, and always be on hand when an alarm is sounded. In addition to that they have given orders for the purchase of a pair of horses to haul the engines to and from fire, and are ready to put men to work enlarging the engine house, making stall rooms for the horses and bunk rooms for the boys. The horses will be employed on the streets days and always ready for a call. This is a step in the right direction and will be the means of putting our fire department in shape to cope with almost any fire that is likely to start in the town. The additional expense will not be felt by the taxpayers.

University Training School.

Following is the report of the University Training School for the month of March, 1891:

Roll of honor—John Bristol, Julia Grotton, Newton Evans, Howard Hogan, Rollin Magill, Mabel Boston, Sadie Phillips, Louise Bender, John Fulton, Philip Emery, Justis Taylor, Choice Brooks, Herbert Jones, Besie Evans, Frieda Frost.

Roll of merit—Aimee Sherman, Edna Robinson, Clara Hoffman, Jobe Taylor, Fred Brown, Willie Stewart, Ben Evans, Ada Phillips, Ernest Barney, Carl Bray.

MARY W. EMERY, Principal.

Work at the Union Mine.

The Virginia Chronicle of last night says of the reopening of the Union mine: "The platform was taken up this morning and a cage lowered into the shaft to the distance of about 700 feet from the surface, and the bell rope adjusted that distance. The timbers were found perfectly solid. Three bob stations, two of the Union and one of the West Con. were passed. Everything was found in good order and a strong downcast dryer. As far as the party went they found a little water, but everything seemed as solid and plumb as the day the timbers were put in."

The Gazette Weather Service.

The rain which fell last night measured 13 hundredths of an inch. A nice spring shower, but the character of it was that of a winter storm in the end. The barometer, which has for some days past indicated storm, got down to the storm notch yesterday, and it there remains. Should it fail to rise to-day, another storm may be expected to-night. The storm centers are now passing south of this region, giving a large overplus of rain and snow to Arizona and New Mexico.

Humboldt Items.

The Silver State of yesterday says: Some eight or ten professional sheep shearers arrived in Winnemucca yesterday under the engagement of Geo. Torritt to clip his bands.

In the District Court in and for Humboldt county, March 25, the Bliss water suit was still before the court. Several witnesses were examined, but the end is not yet.

R. C. Wheeler, Charles Nefinger, B. H. Luther and others left Humboldt for De Lamar, Idaho, where they expect to become millionaires.

Capt. Broyles, the sheep king, arrived in Winnemucca yesterday on his way to the Umatilla Reservation, where the reservation will be sold by the Government on or about the first day of April. Broyles has an eye open to business and will make a bid for it. If he succeeds in buying he will move his sheep to that country.

Haggin's Horses.

Two of J. B. Haggin's horse cars passed through Reno last evening returning to Sacramento from New York. They were named Ben Ali No. 1 and No. 2 respectively, and carried back 22 head of thoroughbred horses. Some of these were sold to parties in California and the remainder were returned to the ranch. The drivers were the ones who were in the wreck near Montello.

The Prostrating Shocks.

Of malarial fever are not to be counteracted by quinine with any degree of certainty or for any length of time. The eradication and prevention of diseases of a miasmatic type are, however, ascertained possibilities. Long experience has shown that there is infinitely more preventive efficacy in the fine botanic medicine, Hostetter's Stomach Bitters, than in the alkaloids, drugs and poisons which were formerly the only recognized means of remedying and anticipating lag of fever and ague and biliousness.

A LOST ADDRESS.

A Trinidad Lady Writes to San Francisco for It.

Mrs. Harriet McNameara of 319 State Street, Trinidad, Colorado, while visiting in St. Louis last summer, did not suffer with her usual sick headaches and indigestion. But upon her return to Trinidad she found the same climate that did so much for her. The secret is told in the following letter, received by Thomas Price & Son, the well-known druggists of 624 Sacramento Street, San Francisco. Mrs. McNameara writes:—

"Three months since I was visiting in St. Louis and obtained two bottles of Joy's Vegetable Sarsaparilla. It was of great relief to me in my headaches and indigestion. Since my return to my home in Trinidad I feel the need of it, and as I have lost the address I write to you to ask if you will kindly forward this letter to the proper number in San Francisco, and have me sent a few more bottles of this valuable vegetable compound."

People having used Joy's Vegetable Sarsaparilla once send hundreds of letters to get it again, as in the above instance.

A Michigan Central Railroad Employee Wins His Case After Seven Years Contest.

While employed as agent of the Michigan Central Railroad Company, at Augusta, Mich., my kidneys became diseased, and from an impoverished and impure state of the blood, my general health was entirely undermined. I consulted the leading physicians of this city and an old-day well man pronounced my case Bright's disease. In October last I began taking Hibbard's Rheumatic Syrup, and an old-day well man pronounced my case Bright's disease.
